

1-prompt Privacy Policy

Last updated: February 11, 2026

Summary: 1-prompt extracts your prompts from AI chat platforms locally in your browser. We only sync data to the cloud when you sign in and choose to use cloud features. Telemetry is opt-in. You can delete all your data at any time.

1. Introduction

1-prompt ("we", "our", "us") is a Chrome browser extension that extracts and compiles user prompts from AI chat platforms. This Privacy Policy explains what data we collect, how we use it, and your choices regarding your information.

By installing and using the 1-prompt extension, you agree to the practices described in this policy. If you do not agree, please uninstall the extension.

2. Data We Collect

2.1 Data You Provide

Data Type	Details	When Collected
Google Account Info	Name, email address, profile picture	When you sign in with Google
Subscription Info	Selected plan tier (Free, Go, Pro)	When you create an account

2.2 Data Collected Automatically

Data Type	Details	Purpose
Extracted Prompts	Your prompts (user messages only) from supported AI platforms	Core functionality - prompt extraction and compilation
Extraction History	Timestamps, platform name, prompt count, preview text	History feature for signed-in users
Usage Counts	Number of daily captures and compilations	Enforcing plan usage limits
Device Identifier	Randomly generated UUID (not linked to your identity)	Guest session tracking on the local device only

2.3 Telemetry Data (Opt-In Only)

We collect anonymous telemetry data **only if you explicitly grant consent**.

Telemetry is disabled by default. If enabled, we collect:

- Extension version
- Feature usage events (e.g., "extraction started", "compilation completed")

- Error and crash reports

You can enable or disable telemetry at any time from the extension settings.

Revoking consent immediately clears any queued telemetry data.

2.4 Data We Do NOT Collect

- AI assistant responses (we only extract **your** prompts, not the AI's replies)
- Browsing history or activity outside of supported AI platforms
- Passwords, financial information, or form data
- Content from websites other than the supported AI platforms listed below

3. How We Use Your Data

Purpose	Data Used	Legal Basis
Extract and display your prompts	Extracted prompts	Contract (core service)
AI-powered prompt compilation	Extracted prompts (sent to AI provider)	Contract (core service)
User authentication	Google account info	Contract (account access)
Cloud history sync	Extraction history, prompts	Contract (feature delivery)
Enforce usage limits	Usage counts, subscription tier	Contract (plan enforcement)
Improve the extension	Telemetry (opt-in)	Consent

We do **not** sell, rent, or share your personal data with third parties for advertising or marketing purposes.

4. Data Storage and Security

4.1 Local Storage

By default, all extracted prompts and usage data are stored **locally on your device** using Chrome's built-in storage APIs (`chrome.storage.local`). This data never leaves your browser unless you sign in and use cloud features.

4.2 Cloud Storage

When you sign in with Google and use cloud-enabled features (history sync, cross-device access), your data is stored on:

- **Cloudflare Workers KV** - Encrypted at rest, hosted on Cloudflare's global edge network

Cloud-stored data includes your user profile, extraction history, and prompts associated with history entries.

4.3 Security Measures

- All network communication uses HTTPS/TLS encryption
- Google OAuth 2.0 for authentication (we never see or store your Google password)
- Server-side token verification via Google's API
- API rate limiting (100 requests per minute per IP)
- Request size limits (1 MB maximum)
- Input validation and sanitization on all server endpoints
- CORS restricted to authorized extension origins only

5. Third-Party Services

We use the following third-party services to operate 1-prompt:

Service	Provider	Purpose	Data Shared
Google OAuth	Google	User authentication	Email, name, profile picture
Gemini API	Google	AI prompt compilation	Extracted prompt text (for processing only)
Cloudflare Workers AI	Cloudflare	AI prompt compilation (fallback)	Extracted prompt text (for processing only)
Cloudflare Workers KV	Cloudflare	Cloud data storage and backend	User profile, history, prompts

When you use the "Compile" feature, your extracted prompts are sent to an AI service (Google Gemini or Cloudflare Workers AI) for processing. These services process the data transiently and do not retain it after generating the response. Please refer to [Google's Privacy Policy](#) and [Cloudflare's Privacy Policy](#) for details on their data handling practices.

6. Browser Permissions

1-prompt requests the following Chrome permissions and why:

Permission	Reason
<code>activeTab</code>	Access the current tab to extract prompts from AI platforms
<code>storage</code>	Store extracted prompts and settings locally
<code>unlimitedStorage</code>	Store larger extraction histories locally
<code>scripting</code>	Inject content scripts into AI platform pages for prompt extraction
<code>sidePanel</code>	Display the extension's side panel UI
	Google sign-in via Chrome's identity API

Permission	Reason
identity / identity.email	
alarms	Schedule background tasks (e.g., periodic sync)
tabs	Detect when you navigate to a supported AI platform

Supported AI Platforms

The extension only activates on these websites:

- ChatGPT (chatgpt.com, chat.openai.com)
- Claude (claude.ai)
- Gemini (gemini.google.com)
- Perplexity (perplexity.ai)
- DeepSeek (chat.deepseek.com)
- Lovable (lovable.dev)
- Bolt (bolt.new)
- Cursor (cursor.sh, cursor.com)
- Meta AI (meta.ai)

7. Data Retention

- **Local data:** Stored until you clear it manually or uninstall the extension.
- **Cloud history:** Stored until you delete it via the extension or request account deletion.
- **User profile:** Stored as long as your account is active.
- **Telemetry:** Aggregated and anonymized; individual events are not retained long-term.
- **Rate limiting data:** Automatically expires after 2 minutes.

8. Your Rights

You have the following rights regarding your data:

8.1 Access and Export

You can view all your extracted prompts and history directly within the extension's side panel.

8.2 Deletion

- **Local data:** Clear via Chrome's extension storage settings or by uninstalling the extension.
- **Cloud data:** Use the "Clear History" option in the extension, or request complete account data deletion through the extension settings. This deletes your profile, history, and all associated data from our servers.

8.3 Consent Withdrawal

- **Telemetry:** Disable at any time from extension settings.
- **Cloud sync:** Sign out to stop cloud synchronization.
- **All data processing:** Uninstall the extension to stop all data collection.

8.4 GDPR Rights (EU Users)

If you are located in the European Economic Area, you have additional rights under GDPR including the right to access, rectification, erasure, data portability, and the right to lodge a complaint with a supervisory authority. To exercise these rights, contact us at the email below.

8.5 CCPA Rights (California Users)

California residents have the right to know what personal information is collected, request deletion, and opt out of the sale of personal information. We do not sell personal information.

9. Children's Privacy

1-prompt is not directed at children under the age of 13. We do not knowingly collect personal information from children. If you believe a child has provided us with personal data, please contact us and we will delete it promptly.

10. Changes to This Policy

We may update this Privacy Policy from time to time. When we make material changes, we will update the "Last updated" date at the top of this page and may notify you via the extension. Your continued use of the extension after changes constitutes acceptance of the updated policy.

11. Contact Us

If you have questions about this Privacy Policy or your data, please contact us:

- **Email:** amaravadhibharath@gmail.com
- **Website:** <https://1-prompt.in>
